## *From the CRC,*

On behalf of the CRC and the Editor we would like to say a big thank you to all the wonderful community members all 4 of you.. that helped participate in the “Clean Up Australia Day” event. Your help and support has not gone unnoticed and is much appreciated. We would like to see more people volunteer next year and help make a difference. If you see rubbish around town please pick it up, don't leave it for Clean up Australia Day, our community members would appreciate it and also our shire workers.

Unfortunately we have some issues we would like to bring up with the community, we have had a number of kids walking around Cue with golf clubs smashing things such as the waterpark functioning system. Due to this kind of behaviour it affects not only the shire workers trying to keep it clean and well functioning for our locals, it also affects visiting people passing through town.

On a brighter note, The Chinese New Year dinner was a success and we'd like to say another big thank you to all those who attended the supported the event, the food was delicious and exceptional, We look forward to what people have to offer next year. Hopefully the Harmony Day Luncheon will be just as successful.

The CRC and the Editor would like to announce that Cue CRC 2019 Footy tipping is on the way and starts on the 21st of March. We would like to have as much people as we can sign up and help spread the word, the more people that sign up the more money can be won!

# FROM THE DESK OF THE CEO

With the approach of the tourist season, it is timely to remind everyone that the Tourist Park is a private, Shire-owned facility and residents, both short and long term, are entitled to quiet enjoyment whilst staying there. If people have a legitimate reason to visit the park, they should park in the visitor's area and attend the office to advise the Manager, Colin, that they are on site. The park is definitely not a children's playground, and it would be appreciated if families not staying in the park could advise their children to keep out.

While on the subject of tourists, they and locals alike will be pleased to know that there are still good examples of the precious yellow metal to be found. This 7.5 ounce nugget was found recently by one of our mining tenement holders using a 7000 series Minelab detector. Please remember that prospecting activity should be restricted to open or pending ground or live ground with permission of the lease owner.

The Shire has taken delivery of a new JCB Integrated Tool Carrier to replace the small loader which had been scheduled for disposal in Council's plant replacement program after servicing the Shire faithfully from new for 25 years. The ITC should prove to be more useful than the loader due to the ability to quickly swap between bucket, forks or crane jib.

*Manager Works & Services, John Curtin, with the Shire's new ITC*

Upcoming events:

- Barefoot Bowls – Continuing. Final day & BBQ – Friday, 29 March.
- Emmet – Wednesday, 3 April.
- Zap Circus Purple People Show – Saturday, 18 May.

**Rob Madson**  
**Chief Executive Officer, Shire of Cue**

**Next Council meeting - 6:30pm Tuesday 19 March 2019**

We were in Malaysia, thawing out after a few weeks in Europe and UK when I suddenly thought it was going to be great to get home. Yes, home to Cue. I was a little surprised that I saw Cue as my home, as we have only been here since June 2017 – a mere 20 months. But no, the mental picture was definitely Cue. You would think that driving through snowy mountainous scenery, enjoying delicious foods prepared with attention and love and visiting friends and family not seen for years would be enough to create lots of new memories. But the enduring memory was

Not where the temperature never got above 10 degrees the whole time we were away. Not where the winds off the rugged coastline in North Scotland wouldn't let you stand up-right. Not where the icicles off the roadside mountain edges were over a metre long and reindeer stood and haughtily let you take photos of them.

Not where weather wasn't sure if it wanted to rain, snow or let the sun shine, so it did all three on the Isle of Skye in less than a minute. No, it was Cue.

It wasn't where William Shakespeare and his wife, Anne Hathaway had stood, centuries ago on the very same flagstones, surrounded by their quirky 3-legged chairs and sturdy oak furniture in her family's cottage in Stratford-upon-Avon, or the elegant Roman spa town of Bath, or the towering Welsh craggy mountains and their shy, hairy sheep. No,

It wasn't in beautifully preserved 5 hundred-year-old hearts of medieval towns where locals burst with pride as they show you around and introduce you to the local craftspeople such as lace-makers and artists. Nor was it out on snow-covered fields which stretched off into the ocean skyline leaving you unsure where each ended. No, it was Cue

Not in the soft, green English rolling fields where daffodils, crocus and snowdrops are encouraged to grow wild under massive bare oaks and elms. Not in a deserted fishing port where a museum offers a life-like portrayal of how haddock fishing in the 50's was – how that industry fuelled a take-away staple ever since. No, it was Cue.

Why wouldn't it be in France where retail displays of flowers, food, clothing – everything for sale is done with such care and panache. Where you are expected to greet the shop-keeper upon entry, and thank them upon leaving – even if you don't buy anything. Why not Germany where country people approach life with such gusto, fun and enthusiasm and of course are confirmed beer-drinkers. Nah, it was Cue.

So my townies – what have you done to us to turn us into Cueties? How have you wormed your way into our being so that we think of you as our extended family, our mates, who make us laugh and feel that we belong? You've just done what you've always done. You've made us welcome, you've embraced us and given us a go. THANKS for the welcome home.
