CUE CRC

Hi All,

Some activities we started in February were Barefoot Bowls and Games Night, which will both continue in the coming months.

Our first Games Night at the CRC was a good night and although only 8 people turned up, three hours flew by pretty quickly. We decided against running the chocolate wheel, so we'll keep the prizes for next time.

We are hosting a COVID information session, put on by the Senior Citizens on the 8th March at 10am.

Craft Group is starting this month, every Wednesday from 9.00am starting on the 9th of March.

Department of Transport will be visiting on the 21st March from 1pm to 3pm.

Our first markets for the year are going to be a Twilight Market on Saturday the 26th March from 6.00pm. We've already got a couple of stalls booked.

The Cue CRC retail section is coming along quite nicely, and we've ordered some more awesome products, that hopefully will be here within the next few weeks.

Julie Humphreys

Manager
Cue Community Resource Centre

WE ARE HIRING!

The Cue CRC are looking for a new employee to join our team. The new position is for a Maintenance/Handyperson

Duties include:

- general maintenance
- general cleaning duties
- yard cleanup/gardening
- set up for events

TO APPLY, EMAIL YOUR RESUME TO JULIE AT:

info@cuecrc.net.au

OR CALL INTO THE CRC TO HAVE A CHAT WITH JULIE.

FROM THE CEO

With the spread of COVID around the State and the opening of the State borders, the Shire of Cue is putting into place plans and protocols to minimise transmission amongst the Shire of Cue and provide continuation of services to the community. At this stage the Tourist Park will remain open to guests and a contactless check in system is being put in place. Some Shire staff will be working from home and works crews will be separated where possible. Customers requiring Shire services are asked to be patient and follow protocols where necessary.

WA Country Health Service will be holding Vaccination Clinics in Cue regularly and will be at the town hall on Wednesday 16 March 2022 for anyone to receive a vaccination or booster, no appointment is necessary. It is expected that more clinics will be held throughout the year, currently on Wednesday's and three weeks apart to administer vaccinations.

This time of year is known for random storms and flooding in isolated parts of the Shire. Strong winds can cause damage and all residents of Cue are asked to secure loose items and dispose of unwanted clutter to reduce the risk of causing damage. The Shire will be undertaking a kerbside collection in March, see details in this edition of the Dryblower. Care should be taken on all roads throughout the Shire, particularly at floodways. Please keep in mind that workers and machinery may be encountered on any of the Shire's roads at this time and observe speed limits and traffic directions posted through road works.

Rain and warm weather also mean prime mosquito breeding conditions. The fogger will be out intermittently, when conditions are suitable, just before dusk to control their numbers.

The final audit report for the 2020 – 2021 financial year is still with the Office of the Auditor General. Once completed, the Shire of Cue 2020-2021 Annual Report will be presented to Council for adoption and made available in the public documents section on the Shire's website. The date for the Annual Electors Meeting will be determined at the time of adoption and advertised in a public notice.

Dog owners are reminded of their obligations to keep their dogs contained within the boundaries of their property or on a leash while walking. The Shire Ranger visits the area frequently and will take action to seize dogs that are found wandering in the street. This may result in a financial penalty to the owner and potential destruction of offending animals. The only authorised area within the townsite where dogs are permitted to be exercised off-leash is the town oval.

Upcoming events:

- Don't Mess with the Dummies have cancelled their Western Australian tour due to COVID border closures and will hopefully resume their tour next year.
- April 25 – ANZAC Day
- May 20—Thank a Volunteer Day

Richard Towell
Chief Executive Officer, Shire of Cue

Next ordinary Council meeting - 6:30pm Tuesday 15 March 2022

Waste placed inside property lines cannot be collected

DO NOT LEAVE ITEMS ON VERGES THAT YOU DO NOT WANT COLLECTED

Western Australian Bird Notes

Quarterly Newsletter of the Western Australian
Branch of BirdLife Australia

No. 168 December 2018

FEEDING BIRDS IN YOUR BACKYARD

Debate was raging recently on Facebook between 30 enthusiasts as to whether feeding wild birds is harmful or not. After some research, I came to the conclusion that it's not so much *WHETHER* feeding them is harmful but *WHAT* we're feeding them. Many people love birds in their gardens and feed them as they feel they are aiding in their survival. Others like to have closer contact or keep them around longer.

As a keen enthusiastic and photographer since early childhood, I have met so many like-minded people. Those with great affection for wildlife – particularly birds.

Birds are colourful, have beautiful calls, pollinate many of our flowers and bring people closer to nature. They may well reduce stress. The very people who love birds are sometimes causing them so much harm.

The damage caused by an incorrect diet is not immediately visible and it's affecting many thousands of birds right across Australia. It is upsetting the balance in several ways.

Giving bread to birds is like force-feeding junk food to children. High quantities of salt are present in bread and processed foods and can cause sickness and deformities in young birds.

Bread is so bad for birds but seeds and meat can cause health problems as well. Processed meats are high in salts, fats and preservatives. Magpies fed items like polony have been shown to have high cholesterol!

Another harmful food is black sunflower seeds as they contain too much fat and are not good – even for seed-eating birds. The bird seed purchased from supermarkets usually contains black sunflower seeds. The better quality seed from pet suppliers has the striped seeds which are much healthier.

Chris Tate

POLICE BEAT

Hello Cue

First off the bat, lets thank the Shire of Cue and their staff for some great Fireworks on Australia Day. It was good see a decent turnout and that everyone was well behaved and some even enjoyed a refreshing ale. The kids had a ball on the water slide.

Unfortunately for us, that was about the end of the good behavior and we ended up charging three locals with Drink Driving offences over the next few days, one with a very high result while having children in the car. It's not good enough in my books and you can expect to be targeted. I'm not interested in your excuses and I don't apologise for targeting you, that's what I get paid for.

While on the subject of traffic offences, we have been making the effort lately to put a few extra traffic patrols on the road around Cue including along the highway. I know we all want to get to Perth for an array of personal reasons but when your speeds are reaching 130 kph plus, you can expect a ticket and few demerit points to be the result. I actually find it very relaxing to set the cruise control at the speed limit and relax on the way so I'm both alive and refreshed when I get there.

Covid 19 in Cue

Its already started, with rumours going around about people having Covid in Cue. Don't believe the crap that you read on Facebook. At some stage there's no doubt in the near future, that's going to be real and people will catch it and it will spread amongst us. We should all be really pleased with the turnout at the Covid Clinic's in the hall so I'm thinking most of us are vaccinated and prepared. We've had roughly about 50 people getting vaccinated each time and now we have good numbers of kids doing their bit. It's about keeping everyone safe.

We all know the health advice is changing daily but they are there to protect us all. There's a few simple rules you need to know.

- If you get tested for Covid 19, you **MUST** isolate at home until you have the result. Hmmm! I wonder what isolate means? It *bloody well* means **STAY HOME**, it doesn't mean go the roadhouse for a sausage roll or grab a carton from Bells or drop in at you're mates. It means **"STAY HOME"** until you get your result. Simple hey. If you need those things, call one of your friends to get what you need and drop it off. They can't come in for a brew or a beer either. Remember your isolating and it will only be a day or two until you get your results.
- You must wear a mask indoors. It appears some people in Cue don't know what that means so I thought I'd remind you so I checked in the dictionary for those that don't know. The dictionary defines a mask as a covering made of fibre or gauze and fitting over the nose and mouth to protect against air pollutants, or made of sterile gauze and **WORN** to prevent infection of the wearer. Its easy people they are there to be **WORN**. Not carried on your wrist or down around your neck. Wear your bloody mask indoors which means at the roadhouse, in the pub or any other business or if you don't like it, stay outside in the cool 43 degrees. Simple.

That's my rant over. Keep Safe and hopefully we'll keep Covid out of Cue just a bit longer.

Mark, Pete and Phil

TOWN OF CUE 3 Bedroom 1 Bathroom House for Sale

This neat and tidy, well-maintained spacious home is located in town near to the Cue Roadhouse, Motel, Post and General Store

It features: Reverse cycle split system a/c in lounge room, ducted cooling throughout
Easy care vinyl or tiled floors in every room

Open plan kitchen and dining with gas oven and cook top

Huge lounge room and master bedroom with built in robe as with the other

Two generously sized bedrooms

New vanity in bathroom which has a tiled Roman bath

Gas hot water system

Land size: 1005 square meters

2 sheds each approximately 3 x 2 meters

The living areas are furnished and this can be negotiated in the contract of sale

COVID-19 Vaccine

FAQ

ARM yourself
AGAINST COVID-19

australia.gov.au | COVID-19

Were COVID-19 vaccines developed too quickly to be safe?

It may seem vaccines were developed quickly, but researchers around the world have been working hard to develop vaccines from the start of the pandemic. They were able to speed up development thanks to the collaboration between them, scientists, manufacturers and distributors.

Will the COVID-19 vaccine work if coronavirus mutates?

All viruses mutate. COVID-19 is no different and there have been reports in media recently about new strains of the virus. Evidence tells us that the COVID-19 vaccines will still be effective against these new variants.

Does the Vaxzevria (AstraZeneca) COVID-19 vaccine cause blood clots?

There has been a link established between the Vaxzevria (AstraZeneca) vaccine and a very rare but serious side effect called thrombosis in combination with thrombocytopenia. There is a very low chance of this side effect, which may occur in around 4-6 people in every million after being vaccinated.

Do COVID-19 vaccines cause infertility?

The TGA will not approve a vaccine for use in Australia unless it is safe and effective. This includes impacts on fertility. None of the COVID-19 vaccines currently approved, or under review by the Therapeutic Goods Administration (TGA) cause sterilisation/infertility.

Do people who have had COVID-19 and recovered need to get vaccinated?

People who have had COVID-19 and recovered should still be vaccinated. The protection someone gains from having COVID-19 varies from person to person.

Do people have to receive two doses and do they have to be the same type of COVID-19 vaccine for it to be effective?

Yes, Comirnaty (Pfizer), Vaxzevria (AstraZeneca) and Spikevax (Moderna) all require two doses to provide the best immunity. It is important you get the same type of COVID-19 vaccine. This is because the evidence from clinical trials shows this is effective and is what is approved for use by the TGA.

Can COVID-19 vaccines alter my DNA?

No, COVID-19 vaccines do not alter your DNA.

Are COVID-19 vaccines mandatory in Australia?

Vaccination for COVID-19 is voluntary – as are all vaccinations in Australia – and people maintain the option to choose. This will apply to any COVID-19 vaccination that may become available. There may be circumstances in the future, however where there may be border entry or re-entry requirements that are conditional on proof of vaccination.

Are COVID-19 vaccines not effective?

No. The Comirnaty (Pfizer), Vaxzevria (AstraZeneca) and Spikevax (Moderna) vaccines are very effective at preventing people from severe illness, hospitalisation and death if they catch COVID-19.

Want more accurate, evidence-based answers to questions about COVID-19 vaccines?

Agent

At a Services Australia Agent you can:

-  use our computer to access my.gov.au and other government programs and services and to search for jobs
-  use the telephone to access our self service options or speak to us
-  access free Wi-Fi 24/7 to connect to government services. No password required
-  scan, fax and photocopy documents
-  have your confirmation of identity documents certified
-  lodge forms or pick up brochures

Agents can:

- respond to general questions on payments and services
- show you a quick and easy way to do your business using self service
- help you complete forms and other paperwork, and
- arrange referrals to specialist services.

Agents can't:

- make, review, assess or vary your payments, or
- issue Electronic Banking Transfers (EBTs), concession or Medicare cards.

Agents aren't Services Australia staff.

Your local Agent is:

Cue Community Resource Centre

Address:

72 Austin Street

Cue WA 6640

Hours of business:

Monday to Friday

9.00am to 4.00pm

To find other Agent locations go to servicesaustralia.gov.au

Get behind the wheel

Emergencies don't have working hours, that's why we need more volunteer Drivers. If you're looking for a way to help, and love getting behind the wheel, this is the role for you.

You'll help with patient transfers, inter-hospital moves and RFDS transfers. And while this is mainly a driver-only role, you will still receive the training you need to assist an Ambulance Officer in an emergency.

We always need help, so to see how people exactly like you can contribute head to stjohnchangelives.com.au or give our Community Paramedic Michelle Fyfe a call on 0437 681 562, or email Michelle.M.Fyfe@stjohnwa.com.au

Help keep your ambulance service strong in Cue.

Life goes on.
Volunteer with St John.
